

EXPERT PAINT PREPARATION

MINI - 180ML (125 MICRON)

PN: R1409

FEATURES/ ADVANTAGES

- Reduces paint consumption
- Ensures consistent material transfer
- Flexible plastic liner
- Heavy-duty design
- Consistent spray at 90° angle
- Outstanding filtration capabilities
- All-in-one fast disposable solution

APPLICATION/ USE

- Insert the disposable liner in the hard cup and decant the toner
- Use the correct ratio for paint measurement on the cup
- Place lid and push down
- Once the lid clicks, attach the collar and tighten it
- Choose the right adapter for the matching spray gun and lock it into the lid
- After spraying disconnect airline, invert gun, and pull trigger to return excess paint
- Allow any excess paint to drain back into the liner before detaching the gun
- Use the cup sealing plug to seal the paint not in use
- Store it upside down on the sealing plug to prevent the filter from solidifying using RHINOMOTIVE Paint Storage Stand R1160
