

## 1. PRODUCT IDENTIFIER

## **CERAMIC EXTREME+ ABRASIVE SHEETS P180**

#### 1.1. Available Sizes:

| No. | P.N.  | Product name                     | Grit | Quantity      | Width      | Length |
|-----|-------|----------------------------------|------|---------------|------------|--------|
| 1   | R1521 | Ceramic Extreme+ Abrasive Sheets | P80  | 55 Sheets/Box | 70mmx198mm | 11m    |
| 2   | R1522 | Ceramic Extreme+ Abrasive Sheets | P120 | 55 Sheets/Box | 70mmx198mm | 11m    |
| 3   | R1523 | Ceramic Extreme+ Abrasive Sheets | P180 | 55 Sheets/Box | 70mmx198mm | 11m    |
| 4   | R1524 | Ceramic Extreme+ Abrasive Sheets | P240 | 55 Sheets/Box | 70mmx198mm | 11m    |
| 5   | R1525 | Ceramic Extreme+ Abrasive Sheets | P320 | 55 Sheets/Box | 70mmx198mm | 11m    |
| 6   | R1526 | Ceramic Extreme+ Abrasive Sheets | P400 | 55 Sheets/Box | 70mmx198mm | 11m    |

1.2. Relevant uses: Abrasive product for Automotive sector.

1.3. Details of the supplier of the safety data sheet

Company: RHINOMOTIVE LTD - UK 71-75 SHELTON STREET, LONDON, UNITED KINGDOM

**Emergency Contact Number: +971 4 329 7775** 

Email: info@rhinomotive.com

## 2. HAZARDS IDENTIFICATION

#### 2.1 Classification of the substance or mixture

GHS Classification: Not classified as hazardous pursuant to provisions in EC Regulation 1272-2008 (CLP) GHS Label Elements: Not Applicable

## 3. COMPOSITION/INFORMATION ON INGREDIENTS

| Name                       | CAS#       | Percentage |  |
|----------------------------|------------|------------|--|
| Ceramic and Aluminum Oxide | 1344-28-1  | 80%        |  |
| Inorganic Fluoride         | 60304-36-1 | 5%         |  |
| Epoxy resin                | 25085-99-8 | 5%         |  |
| Silicon Carbide            | 409-21-2   | 5%         |  |
| Fiberglass Mesh            | 65997-17-3 | 5%         |  |

While this material is not classified as hazardous under Federal OSHA regulations, this SDS contains valuable information critical to the safe handling and proper use of this product. This MSDS should be retained and available for employees and other users of this product.

## CERAMIC EXTREME+ ABRASIVE SHEETS P180

PN: R1523

#### 4. FIRST-AID MEASURES

4.1. Description of first aid measures

Emergency Overview: No hazards to incidental or prolonged exposure

Potential Health Effects Inhalation: Remove person to fresh air. If you feel unwell, get medical attention.

Ingestion: Not expected to be a health hazard via ingestion.

Skin Contact: Not expected to be a health hazard from skin exposure.

Eye Contact: Flush with large amounts of water. Remove contact lenses if easy to do. Continue rinsing. If signs/symptoms persist, get medical attention.

Effects of Chronic Exposure: No information found. Medical Conditions Aggravated: No information found.

### 5. FIRE FIGHTING MEASURES

Fire and Explosion Hazard: None

5.1 Extinguishing media Suitable extinguishing media

Extinguishing powder. Sand. Carbon dioxide (CO2). Whatever surrounding fire requires.

5.2 Special hazards arising from the substance or mixture.

Formation of decomposition products possible.

In case of fire and/or explosion do not breathe fumes.

5.3 Advice for firefighters

In case of fire: Wear self-contained breathing apparatus.

Additional information

No additional information found.

## **6. ACCIDENTAL RELEASE MEASURES**

6.1. Personal precautions, protective equipment, and emergency procedures

Environmental Precautions: Dispose of following local, state, and federal disposal regulations.

Reference to other sections No data

## 7. HANDLING AND STORAGE

#### Handling:

Avoid eye contact. Avoid breathing dust created by cutting, sanding, grinding or machining. For industrial/occupational use only. Not for consumer sale or use. Damaged products can break apart during use and cause serious injury to the face or eyes. Check product for damage such as cracks or nicks prior to use. Replace it if damaged. Always wear eye and face protection when working at sanding or grinding operations or when near such operations. Sparks and particles flying from the product during sanding or grinding can cause injury and fire. Combustible dust may form by action of this product on another material (substrate). Dust generated from the substrate during use of this product may be explosive if in sufficient concentration with an ignition source. Dust deposits should not be allowed to accumulate on surfaces because of the potential for secondary explosions. Storage: Store in a cool, dry location.

#### 8. EXPOSURE CONTROL/PERSONAL PROTECTION

#### 8.1. Exposure limits

If a component is disclosed in section 3 but does not appear in the table below, an occupational exposure limit is not available for the component.

AIHA: American Industrial Hygiene Association

CMRG: Chemical Manufacturer's Recommended Guidelines

OSHA: United States Department of Labor - Occupational Safety and Health Administration

TWA: Time-Weighted-Average STEL: Short Term Exposure Limit

**CEIL:** Ceiling

#### 8.2. Exposure controls

Use general dilution ventilation and/or local exhaust ventilation to control airborne exposures to below relevant Exposure Limits and/or control dust/fume/gas/mist/vapors/spray. If ventilation is not adequate, use respiratory protection equipment. Provide appropriate local exhaust ventilation for cutting, grinding, sanding or machining. Provide local exhaust at process emission sources to control exposure near the source and to prevent the escape of dust into the work area. Ensure that dust- handling systems (such as exhaust ducts, dust collectors, vessels, and processing equipment) are designed in a manner to prevent the escape of dust into the work area (i.e., there is no leakage from the equipment).

#### 8.3. Safety equipment

## Eye/face protection:

To minimize the risk of injury to face and eyes, always wear eye and face protection when working at sanding or grinding operations or when near such operations. Select and use eye/face protection to prevent contact based on the results of an exposure assessment. The following eye/face protection(s) are recommended: Rhinomotive Safety Glasses R1303 with Particulate Dust Mask R1301 or Particulate Dust Mask with Valve R1302.

#### Skin/hand protection:

Wear Rhinomotive Versatile Cut Resistant Gloves R1306-R1308 to minimize risk of injury to skin from contact with dust or physical abrasion from grinding or sanding.

## Respiratory protection:

Assess exposure concentrations of all materials involved in the work process. Consider material being abraded when determining the appropriate respiratory protection. Select and use appropriate respirators to prevent inhalation overexposure. An exposure assessment may be needed to decide if a respirator is required. If a respirator is needed, use respirators as part of a full respiratory protection program. Based on the results of the exposure assessment, select from the following respirator type(s) to reduce inhalation exposure: Half facepiece or full facepiece air-purifying respirator suitable for particulates

For questions about suitability for a specific application, consult with your respirator manufacturer.

#### 9. PHYSICAL & CHEMICAL PROPERTIES

9.1 Information on basic physical and chemical properties

| Appearance: | Abrasive Fibre disc |  |
|-------------|---------------------|--|
| Odour:      | Slight Polymeric    |  |
| Colour      | Orange              |  |

# CERAMIC EXTREME+ ABRASIVE SHEETS P180

PN: R1523

| pH:                             | Not applicable |  |
|---------------------------------|----------------|--|
| Melting Point / Freezing Point: | Not applicable |  |
| Boiling Point:                  | Not applicable |  |
| Flash Point:                    | Not applicable |  |
| Evaporation Rate:               | Not applicable |  |
| Vapour Pressure:                | Not applicable |  |
| Vapour Density:                 | Not applicable |  |
| Relative Density:               | Not applicable |  |
| Relative Steam Density          | Not applicable |  |
| Solubility(ies):                | Not applicable |  |
| Auto-Ignition Temperature:      | Not applicable |  |
| Decomposition Temperature:      | Not applicable |  |

#### 10. STABILITY AND REACTIVITY

Reactivity: This material is considered to be non-reactive under normal

use conditions.

Stability:

Materials to Avoid: Conditions to Avoid: Stable under recommended storage and handling conditions Stable under recommended storage and handling conditions.

None in particular.

### 11. TOXICOLOGICAL INFORMATION

Based on test data and/or information on the components, this material may produce the following health effects:

## Inhalation:

Dust from cutting, grinding, sanding or machining may cause irritation of the respiratory system. Signs/symptoms may include cough, sneezing, nasal discharge, headache, hoarseness, and nose and throat pain.

## Skin Contact:

Mechanical Skin irritation: Signs/symptoms may include abrasion, redness, pain, and itching.

## Eye Contact:

Mechanical eye irritation: Signs/symptoms may include pain, redness, tearing and corneal abrasion.

Dust created by cutting, grinding, sanding, or machining may cause eye irritation. Signs/symptoms may include redness, swelling, pain, tearing, and blurred or hazy vision.

#### Ingestion:

No health effects are expected.

## 12. ECOLOGICAL INFORMATION

Eco-toxicity: No specific data is available for this product. Avoid littering.

Dispose of it within local, state, and federal guidelines.

Persistence and Degradability:

Bio-accumulate Potential:

Mobility in Soil:

Other Adverse Effects:

No information found.

No information found.

No information found.

14.2. Special precautions for user

No information available.

#### 15.REGULATORY INFORMATION

These transportation classifications are provided as customer service. As the shipper YOU remain responsible for complying with all applicable laws and regulations, including proper transportation classification and packaging. Rhinomotive transportation classifications are based on product formulation, packaging, Rhinomotive policies and Rhinomotive understanding of applicable current regulations. Rhinomotive does not guarantee the accuracy of this classification information. This information applies only to transportation classification and not the packaging, labeling, or marking requirements. The original Rhinomotive package is certified for U.S. ground shipment only. If you are shipping by air or ocean, the package may not meet applicable regulatory requirements.

## **16. OTHER INFORMATION**

The information is based on the present level of our knowledge. It does not, however, given assurances of product properties and establishes no contract legal rights. The receiver of our product is singularly responsible for adhering to existing laws and regulations.
