

# ENGINE OIL FLUSH 3L

**PN: R1230**

## FEATURES/ ADVANTAGES

- Dissolves and removes deposit build-up
- Improves fuel consumption and engine efficiency
- Gives car a clean slate
- Prolongs life span of engine internal parts

## APPLICATION/ USE

1. Run the engine until it reaches normal running temperature
2. Drain the old oil
3. Refill the complete engine flush system using RHINOMOTIVE Engine Oil Flush R1230 at least the minimum fill. Do not overfill
4. Run the engine with no loading for 5 to 10 minutes
5. Drain the flush oil. For heavy contamination, this step may be repeated
6. Finally, add new engine oil as per manufacturer's specification
